

Tasks

Thursday, September 05, 2024 4:53 PM

1. Create a condition to a workflow process, so that it should be visible when:
 - o Should be visible to that particular BO only.
 - o Business object owning_project and user session project should be equal
 - o User should be logged in with Engineering group.
 - o BO should not contain any release statuses.
 - o No workflow process should be in progress on it.

Condition : A2WFconditionforBMIDE_prudhvi

▼ Details

Project: a2bmide

Name: A2WFconditionforBMIDE_prudhvi

Description:

☐ Secured

Input parameters: ☐ Business Object ☐ Business Object and User Session ☒ Custom

Signature: A2WFconditionforBMIDE_prudhvi (WorkspaceObject w, lmanType i, UserSession u)

Expression: (w.object_type="A2BMIDE_prudhviRevision") AND (u.group_name="Engineering") AND (w.owning_project=u.project)AND(w.fndOnProcess=false)AND(w.last_release_status=NULL)

Condition Usage Report

☐ COTS?

Template: a2bmide

2. A secondary object should be attached to primary object if and only If the owning project of both object are same.

For this we have to create 2 conditions, positive and negative and attach them to the GRM rules of BO.

Positive condition:

▼ Details

Project: a2bmide

Name: A2condition_for_PG

Description:

☐ Secured

Input parameters: ☐ Business Object ☐ Business Object and User Session ☒ Custom

Signature: A2condition_for_PG (lmanGRM g, A2BMIDE_prudhviRevision p, ItemRevision w)

Expression: w.owning_project.project_name=p.owning_project.project_name

Condition Usage Report

☐ COTS?

Template: a2bmide

Negative Condition:

▼ Details

Project: a2bmide

Name: A2not_equalto_owningproject

Description:

☐ Secured

Input parameters: ☐ Business Object ☐ Business Object and User Session ☒ Custom

Signature: A2not_equalto_owningproject (lmanGRM i, A2BMIDE_prudhviRevision p, ItemRevision i)

Expression: p.owning_project.project_name!=r.owning_project.project_name

Condition Usage Report

☐ COTS?
